

## Safety signals

Important information concerning safety is distinguished in this manual by the following notations:

The Safety alert symbol means:  
Caution! Your safety is involved.

### WARNING!

Failure to follow warning instructions could result in **severe or fatal injury** to anyone working with, inspecting or using the suspension, or to bystanders.

### CAUTION!

Caution indicates that special precautions must be taken to avoid damage to the suspension.

### NOTE!

This indicates information that is of importance with regard to procedures.

Öhlins products are subject to continual improvement and development. Consequently, although these instructions include the most up-to-date information available at the time of printing, there may be minor differences between your suspension and this manual. Please consult your Öhlins dealer if you have any questions with regard to the contents of the manual.

### NOTE!

During storage and transportation, especially at high ambient temperature, the oil and grease used for assembling may run out inside the packing and damage the expanded polystyrene packing material. This is not unusual and is in no way detrimental to the steering damper.

## Kit contents

Before installing the steering damper, please check the contents of the kit. If anything is missing, contact your Öhlins dealer.

Description	Pcs.	Part No.
Steering damper stroke 68	1	02260-10
Bracket assy	1	02230-07
Spacer	1	02259-02

Owners manual	1	

## Before installation

Öhlins Racing AB can not be held responsible for any damage whatsoever to steering damper or vehicle, or injury to persons, if the instructions for fitting and maintenance are not followed exactly.

Similarly, the warranty will become null and void if the instructions are not adhered to.

### WARNING!

1. Installing a steering damper, that is not approved by the vehicle manufacturer, may affect the stability of your vehicle. Öhlins Racing AB cannot be held responsible for any personal injury or damage whatsoever that may occur after fitting the steering damper. Contact an Öhlins dealer or other qualified person for advice.

2. Please study and make certain that you fully understand all the mounting instructions and the owners manuals before handling this steering damper kit. If you have any questions regarding proper installation procedures, contact an Öhlins dealer or other qualified person.

3. The vehicle service manual must be referred to when installing the Öhlins steering damper.

## Mounting instructions

1

Put the motorcycle on a stand. Make sure it's steadily fixed so it will not fall over.

### WARNING!

1. It's advisable to have an Öhlins dealer or other qualified person to fit your steering damper.  
2. Instructions in the vehicle service manual are to be followed when changing the steering damper.  
3. When working on a lifted vehicle it must be securely supported to prevent it from falling.

2

Remove the original steering damper.

3

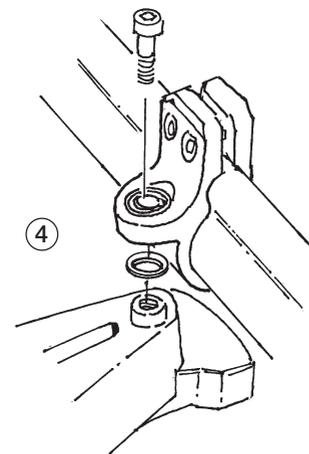

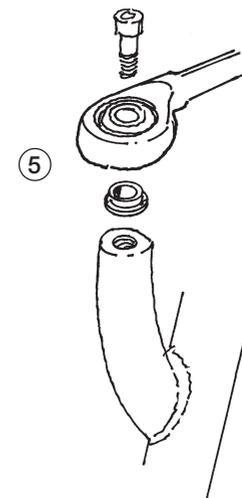

Fit the bracket assy to the steering damper

4

Fit the Öhlins steering damper bracket assy to the triple clamp. Fit the spacer between the triple clamp and the bracket. Use original screw. Do not tighten yet.

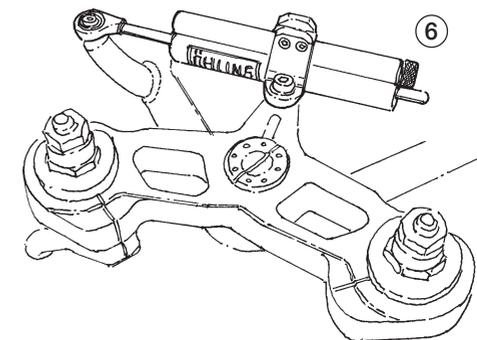

5

Fit the end eye of the steering damper to the frame bracket. Use original screw and washer.

6

Adjust the steering damper by letting it slide in its bracket assembly so the steering damper uses similar stroke length both ways.

### NOTE!

Make sure that there are no problems with clearance when turning the steering to the left and right end positions, and that the damper is not used as a stop.
